TECHNICAL SKILLS

Front end	JavaScript, TypeScript, React, Styled-Components, Redux, HTML5, CSS3	Principles and Methodologies	Agile, Scrum, S.O.L.I.D. principles for clean code
Back end	Node.js, Express, Java, C#, .NET Core, Entity Framework Core, Spring Boot, Spring Data JPA, MySQL, PostgreSQL	Testing and more	Jest, React Testing Library, Git, GitHub, Docker, AWS

WORK EXPERIENCE

Software Developer Intern

Thomson Reuters

06/2020 - 08/2020

Achievements/Tasks

- Created a dynamic Page Title with **Redux** and **ASP.NET Core** for displaying the environment configuration.
- Implemented **unit tests** for **Angular TypeScript** components, reducers, and selectors in Jasmine to ensure code quality.
- Improved modal dialog components to enable popup windows to be able to maximize and resize for **improved UI/UX**.
- Improved a tab component to have updated **SCSS styles** to match the design specification by UI/UX designers.
- Completed tasks and **collaborated** with Product Managers, Designers, and Developers following the **Scrum methodology**.

PROJECTS

EasyMealPlanner Web App (<https://stevengarcia.netlify.app/project/1>)

- Deployed to **AWS** at the domain <https://easymealplanners.com> using **S3**, **EC2**, **RDS**, **Elastic Beanstalk**, **CloudFront**, and **Route53**.
- Utilized **Next.js**, **JavaScript**, **TypeScript**, **React Hooks**, and **Styled Components** to create a **responsive** mobile-first client and managed state using **Redux** as the single source of truth for child component's props.
- Implemented **reusable JavaScript (React) components** and **High Order Components**.
- Created a **RESTful API** using **Java**, **Spring Boot**, **Spring Security**, interacted with **Postgres** database through **Spring Data JPA**, and used **Docker** to build an image for the API.

Bug Tracker Project Management (<https://stevengarcia.netlify.app/project/2>)

- Implemented a **RESTful API** with **C#**, **ASP.NET Core**, and **Entity Framework Core** for data persistence to **Postgres**.
- Developed **React** and **Redux** client with responsive CSS styles using **CSS Grid**, **Flexbox**, **Media Queries**, and **Styled Components**.

EDUCATION

B.S. Computer Science

Cal State University of Long Beach

08/2015 - 05/2020
